WORK EXPERIENCE

Publicis Sapient   **Apr. 2021 – Present**
Associate Technology L1   *Gurugram, Haryana*

- Publicis Sapient is a digital transformation partner helping established organisations get to their future, digitally-enabled state.
- As an Associate Frontend developer, I work with the core web development technologies to bring our client's visions to a reality.
    - Extensive work in Accessibility compliance and testing.
    - Follow TDD (Test driven development).
    - Ensuring web design is optimised for all viewports.
    - Striking a balance between functional, aesthetics and accessibility.
- Finalist in company level hackathon - enABLED while working at Publicis Sapient. (November 2021)
    - Created a machine learning based project which converts American Sign Language to a search query for an e-commerce website.
    - Tech stack that was used - Tensorflow, Python, OpenCV, Websockets, HTML5, CSS3 and Javascript.
- Tech stack that I utilize on a day to day basis - HTML5, CSS3, JS, JQuery, SASS, Handlebars.

LUCRE   **Jun. 2018 - Nov. 2018**
Developer Intern   *Remote, Nevis*

- LUCRE was an Algorithmic trading platform and signal service based on Blockchain technology.
- As a Developer Intern, I worked with most of the frontend aspects of the project.
    - Made dynamic graphs for projection using Chart.js.
    - Worked with Vue.js and Firebase.

EDUCATION

Maharaja Surajmal Institute of Technology, Janakpuri (GGSIPU)   **Aug. 2016 - Dec. 2020**
B. TECH, ECE (Electronics and Communication)   *Delhi*

- Graduated with 7.8 CGPA.
- Worked on a Multi-stage Theft protection plate as a Final year project.
    - Device is like a plate which will have the object to be secured mounted on it.
    - Website created using React, JS, HTML5, CSS3.
    - Backend created with PostgreSQL, Express.js, Node.js.
    - Pressure, orientation and RFID authentication to safeguard the object against unauthorised actions upon it.
- Trained for CeH (Certified Ethical Hacker) course at Codec Networks, Barakhamba Road, Delhi as part of Summer training in Jun. 2019.
